Agenda item 11.0 Consent Agenda: 11.1i Approve Consolidated Application (Kelley Odipo)

Consolidated Application was presented to DELAC at a Special Meeting on August 18. When the Director of State and Federal Funding solicited Multilingual for a meeting with DELAC late July due to an impending timeline, we encouraged the Director of State and Federal Funding to host a Special Meeting with the support of Multilingual to coordinate language-accessibility and advertising to all DELAC members. However, our members did not receive notice of this meeting from Multilingual or the Director of State and Federal Funding, and without our members in attendance, DELAC Council was not comfortable moving forward. The Director of State and Federal Funding is invited to present at our September DELAC meeting so that our members have the opportunity to participate in the ConApp Review presentation. It should be noted that DELAC had repeatedly reached out to the Director of State and Federal Funding to present the ConApp during the 19-20 school year and, though participation was confirmed by the Multilingual Director and ConApp was included on December's DELAC agenda, nobody showed up to present.
