Board of Education

Comment on 12.1c

Nikki Milevsky

This is really misleading for the public and for the school board. Earlier tonight you had a public presentation of the Proposed COVID Spending Plan. But back hidden in the Consent Agenda that is not discussed publicly you have 8.6 million in actual COVID Money expenditures as of August 25, 2020 for this board to approve tonight. Those expenditures include 143 thousand dollars to the Law firm of Lozano Smith for COVID related legal/ negotiation fees from March to June. AND \$93 thousand dollars to Pam Manwiller for consultant/negotiations during the same time period with no discussion of that outrageous expense at all. Is this really what these dollars should be spent on?
