School Description

Set on 44 park-like acres in the Pocket-Greenhaven neighborhood, John F. Kennedy is an outstanding high school, featuring both traditional and innovative course offerings presented by a caring and dedicated faculty. Students are encouraged to seek success in a positive, safe environment, which fosters growth, personal responsibility and a challenging curriculum. Individual and cultural diversity is endorsed and supported so that all students receive the opportunity to become engaged, productive citizens.

Parents and community members are a visible presence on campus. They participate in many parent forums and on school decision making committees. Families support the school by walking the campus, beautifying the grounds, and installing extra lighting. Cougar Parent Committee (CPC) and Parents at Kennedy (PAK) volunteers assist during orientation, testing, and many other extracurricular activities.

The Program in America and California Exploration (PACE), founded by Senator Gary Hart in 2001, is a four-year college preparatory history and English program that explores these curricular areas from a uniquely Californian perspective. The program features a summer component at California State University, Sacramento (CSUS) for incoming freshmen, numerous pathway specific field trips, and outstanding guest speakers from a wide range of career paths.

Founded in 2014 after two years of planning, the Manufacturing and Design (MaD) pathway is Kennedy's newest program, offering many diverse opportunities to students in areas including product design and the development process, the principles of design, computer aided design, fabrication and manufacturing processes, sustainability, and the principles of business, entrepreneurship, and global design. An award winning and nationally recognized robotics program is also offered via the MaD pathway.

Supported in part by the Sacramento Police Department (SPD), the Criminal Justice Academy is a California Partnership Academy (CPA) and offers unique opportunities to those who are interested in exploring the field of law enforcement. The curriculum includes in-depth coverage of federal, state and local government and law plus a rigorous physical education and training program for four years. Community service and family involvement are required. SPD provides cadet uniforms and offers summer employment and assistance with college tuition.

Marine Corps Junior ROTC offers students a chance to explore a career in the military. Kennedy has two Marine Corps teachers on campus who instruct students on leadership, discipline and the Marine Corps curriculum. Community service and family involvement are required. The United States Marine Corps provides cadet uniforms and support.

The Academy of Culinary Arts provides students opportunities to learn skills and explore career options. The culinary courses use innovative lesson plans and activities to teach a wide range of topics which include nutrition, food preparation and sanitation, serving and catering, and cooking skills. Advanced coursework provides job shadowing and internship opportunities at local restaurants and hotel kitchens. The Cougar Cafe houses a full scale commercial kitchen and an eating area that seats seventy-five people.

Among Kennedy's other curricular offerings include numerous art offerings, a robust and award winning marching band, orchestra, color guard, choir, newspaper, a wide variety of foreign language offerings, and numerous advanced placement classes in English, Social Science, Science, Math, Art, and World Languages.

John F. Kennedy features a varied physical education and athletic program with twenty-one competitive sports available to students. In addition, there are more than 45 different clubs from which for students to choose.

Students are encouraged to 1) Get Invested, 2) Have a Purpose, and 3) Be Thoughtful, and 4) Seek Understanding.

About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2018-19)

The district instructional material evaluation committee, consisted of members representing teachers, administrators, other staff, students, parents/guardians, and community, ensures that the selected textbooks, technology-based materials and other educational materials effectively support the district's adopted courses of study and meet current curricular goals and California Content Standards. Teachers, students, parents/guardians and community members have the opportunity to review and provide input about the instructional materials being considered for adoption. Recommendations for the adoption and/or withdrawal of instructional materials by the instructional material evaluation committee are presented to the Board by the Superintendent or designee and include documentation supporting the recommendation. In some instances, the considered textbooks and/or instructional materials are piloted for a period of time before being recommended for adoption to the Board of Education.

School Facility Conditions and Planned Improvements (Most Recent Year)

John F. Kennedy High School, built in 1967, received Facility Inspection Tool (FIT) overall repair rating score of “exemplary” from its most recent facility inspection in August 2018. The district governing Board has adopted cleanliness standards for all district schools to ensure that all schools are clean, safe and functional. The district Operations Department takes great pride following a work order process that provides efficient and timely services to all the sites. The principal works directly with the site custodial staff to develop cleaning schedules to ensure that the school is clean and safe.

The passage of Measure Q, the district’s 2012 general obligation bond, provided facility upgrade funding to all district schools. The district performed Quick Strike projects during the summer of 2014, which allowed schools to pick from one of the following improvements: 1) marquees, 2) closed-circuit television (CCTV) surveillance, 3) exterior painting, or 4) seal coating and striping of parking lots or playgrounds. Fire alarms at all the district schools were upgraded. Additional 10 million dollars have been allocated for safety and security upgrades, which are expected to begin in 2019.

Funding from the federal government through Universal Service Administrative Company (USAC) provided for technology infrastructure improvements to the district’s wireless connectivity. The improvements, which are expected to be completed by the end of 2019, will increase classroom internet access and digital voice communication.

John F. Kennedy High School received additional Measure Q allocation in the categories of Core Academic Renovation, Modernization, Repair and Upgrades that have been designated to be used to renovate the music wing and make improvements in the administration wing to better provide career, college and guidance services.

In addition, Measure R, a 2012 bond measure, provided the funding for the new stadium with synthetic track and field, restroom buildings, and a concession building.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

2017-18 CAASPP Results for All Students						
Subject	Percent of Students Meeting or Exceeding the State Standards (grades 3-8 and 11)					
	School		District		State	
	16-17	17-18	16-17	17-18	16-17	17-18
ELA	64.0	52.0	39.0	40.0	48.0	50.0
Math	36.0	35.0	31.0	32.0	37.0	38.0

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: ELA and mathematics test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter

Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

CAASPP Test Results in Science for All Students						
Subject	Percent of Students Scoring at Proficient or Advanced (meeting or exceeding the state standards)					
	School		District		State	
	16-17	17-18	16-17	17-18	16-17	17-18
Science	N/A	N/A	N/A	N/A	N/A	N/A

Note: Cells with N/A values do not require data.

Note: The 2016–17 and 2017–18 data are not available. The CDE is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The CAST was pilot-tested in spring 2017 and field-tested in spring 2018. The CAST will be administered operationally during the 2018–19 school year. The CAA for Science was pilot-tested for two years (i.e., 2016–17 and 2017–18) and the CAA for Science will be field-tested in 2018–19.

Note: Science test results include the CAST and the CAA for Science. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated on both assessments.

State Priority: Other Pupil Outcomes

The SARC provides the following information relevant to the State priority: Other Pupil Outcomes (Priority 8):

- Pupil outcomes in the subject area of physical education

Grade Level	2017-18 Percent of Students Meeting Fitness Standards		
	4 of 6	5 of 6	6 of 6
9	18.6	35.5	21.8

* Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

-Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

-Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site

Opportunities for Parental Involvement (School Year 2018-19)

The Cougar Parent Committee (CPC) and Parents at Kennedy (PAK) are two active groups that promote parental involvement at John F. Kennedy. Volunteer opportunities include dance chaperones, orientation, Back-to-School Night, Open House, Cougar Days, information nights and Sober Graduation Night. Historically, CPC has hosted the teacher appreciation breakfasts and end-of-year luncheon for staff. PAK owns and operates the lockers at the school and beautifies and improves the campus. PAK seeks volunteers who are available to walk the campus during lunch to provide additional adult supervision. Numerous parent booster clubs provide additional support for the music and sports programs.

For more information with regard to volunteer opportunities, please contact David Van Natten, Principal, at (916) 395-5090.

State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

Professional Development provided for Teachers

To realize the vision of Sacramento City Unified School District, which is to fully prepare all students for college and career, it is imperative that the district provides numerous opportunities to expand the professional repertoire of its administrators and teachers.

To that end, the district has crafted a high quality professional program that is focused on Literacy (including ELA Common Core Standards), English Language Learners, Differentiation of Instruction, Data Inquiry, Culturally and Linguistically Teaching and Learning, and Conceptual Understanding of Mathematics. The learning opportunities afforded through this program deeply align with the needs of our individual schools, as well as our strategic plan, and connect to every aspect of school practice: thinking curriculum, intentional instructional practices, assessment for learning, and lesson design.

Professional learning opportunities are offered during school hours and outside of contracted hours. In addition to on-site coaching and regular professional learning opportunities, a designated collaborative Thursday time provides the opportunity for teachers to engage in collaborative professional learning at their respective schools focusing on deepening their content knowledge, strengthening their instructional repertoire, improving their assessment strategies, and fostering a shared sense of responsibility.

Career Technical Education Programs

The College and Career Readiness Department provides high quality support to all schools in Sacramento City Unified as they move to adopt a “Linked Learning” approach preparing students for career and post-secondary experiences. The department also works closely with industry and community partners as well as post-secondary institutions to support our schools in preparing our students to be successful after graduation.

Linked Learning is a career-themed approach to learning that prepares students for their future: academic preparation for college and professional skills for success in the workplace. Students study through a profession that interests them, learning challenging academics and professional skills in the classroom while getting real world experience through internships. No matter which professional interest they choose, Linked Learning students develop into adults who are prepared for college, career, and life after high school.

The CTE programs offered at each of the SCUSD high schools are diverse and unique to the specific culture and needs of each school. The Career Technical Education (CTE) pathways represent the twelve (12) Industry Sectors identified by the state.

CTE programs and courses are reviewed by CTE District Wide Advisory Committee comprised of a variety of people including, but not limited to, business partners, community leaders, parents, students, educators and other interested parties. The committee discusses awareness, recruitment, placement, and retention of middle, high school students in CTE classes; local labor market, and school/business partnerships. Career technical education updates, evaluations and funding will also be reviewed. The committee is also responsible for approving the SCUSD Career Technical Education Plan.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
