The Joseph Bonnheim School Mission: As New Joseph Bonnheim Community Charter educators, we will provide standards-based curriculum and instruction that supports the learning of all students so that they meet or exceed grade level expectations.

NJB is an excellent neighborhood charter school that is centered on agriculture and science, and on the very community it serves. With a dedicated and caring team of highly qualified teachers, support staff, wonderful children, involved and supportive parents, and partnerships, our mission is to develop responsible, respectful, and proactive citizens to become caretakers of our community, our state, our country, and our planet.

NJB is deeply committed in all aspects of our scholars' learning by providing a quality education using the Highly Effective Teaching model, LIFESKILLS to promote positive relationships, and implementing the Common Core State Standards. At NJB, scholars are fully engaged in their thinking and demonstrate mastery of learning effectively. Our goal is to guide children to become fully participating citizens by giving them a strong academic education in a nurturing environment that recognizes diversity, promotes healthy choices, positive mindset, and embraces community involvement.

Our scholars receive a challenging and rigorous academic curriculum that is thematic and based in science and agriculture. Our project based learning and inquiry is supported with enrichment activities, hands-on and real-life experiences, community resources, and active parent participation and involvement. Parent and community partnerships are encouraged and continue to provide vital assistance to our educational program.

In addition to instruction in the core curriculum and units of study in science, scholars are provided learning opportunities in our community garden, library, art and music, sports, technology, and various after school and enrichment programs. NJB also has smaller class sizes to support learning and every grade level has a bi-lingual teacher.

To further optimize our scholars' learning and development of staff, this year we are utilizing a year-round calendar designed to support a high level of on-going professional development without interfering with the instructional day.

Other staff members at NJB provide support and are instrumental in helping scholars with their academic and social and emotional needs. These services include a speech and language specialist, resource specialist, counseling services and mentoring, and school psychologist.

Scholars receive special recognition in monthly Super Bee assemblies, Perfect Attendance assemblies (monthly, trimester, and year-long), recognition for achieving benchmarks on periodic benchmark assessments in English Language Arts and Mathematics, and grade level standards in English Language Arts, Mathematics and Science based on the I-ready, SBAC, Science CST, and various data. Scholars' academic improvement is also acknowledged and highlighted throughout the school year.

Our school's Steering Committee, PTA, and other site committees are very active and highly committed to supporting and improving the educational program and school environment through its involvement with the school and its many planned school and family activities.

New Joseph Bonnheim Community Charter is a wonderful neighborhood school establishing a tradition of curious intellectual learners, high scholar achievement and academic success for all scholars, and outstanding parent and community involvement. We believe in our scholars and their educational success is our priority.

About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2018-19)

The district instructional material evaluation committee, consisted of members representing teachers, administrators, other staff, students, parents/guardians, and community, ensures that the selected textbooks, technology-based materials and other educational materials effectively support the district's adopted courses of study and meet current curricular goals and California Content Standards. Teachers, students, parents/guardians and community members have the opportunity to review and provide input about the instructional materials being considered for adoption. Recommendations for the adoption and/or withdrawal of instructional materials by the instructional material evaluation committee are presented to the Board by the Superintendent or designee and include documentation supporting the recommendation. In some instances, the considered textbooks and/or instructional materials are piloted for a period of time before being recommended for adoption to the Board of Education.

School Facility Conditions and Planned Improvements (Most Recent Year)

New Joseph Bonnheim Elementary School, built in 1951, received Facility Inspection Tool (FIT) overall repair rating score of "fair" from its most recent facility inspection in September 2018. The district governing Board has adopted cleanliness standards for all district schools to ensure that all schools are clean, safe and functional. The district Operations Department takes great pride following a work order process that provides efficient and timely services to all the sites. The principal works directly with the site custodial staff to develop cleaning schedules to ensure that the school is clean and safe.

The passage of Measure Q, the district's 2012 general obligation bond, provided facility upgrade funding to all district schools. The district performed Quick Strike projects during the summer of 2014, which allowed schools to pick from one of the following improvements: 1) marquees, 2) closed-circuit television (CCTV) surveillance, 3) exterior painting, or 4) seal coating and striping of parking lots or playgrounds. Fire alarms at all the district schools were upgraded. Additional 10 million dollars have been allocated for safety and security upgrades, which are expected to begin in 2019.

Funding from the federal government through Universal Service Administrative Company (USAC) provided for technology infrastructure improvements to the district's wireless connectivity. The improvements, which are expected to be completed by the end of 2019, will increase classroom internet access and digital voice communication.

Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and

Professional Development provided for Teachers

To realize the vision of Sacramento City Unified School District, which is to fully prepare all students for college and career, it is imperative that the district provides numerous opportunities to expand the professional repertoire of its administrators and teachers.

To that end, the district has crafted a high quality professional program that is focused on Literacy (including ELA Common Core Standards), English Language Learners, Differentiation of Instruction, Data Inquiry, Culturally and Linguistically Teaching and Learning, and Conceptual Understanding of Mathematics. The learning opportunities afforded through this program deeply align with the needs of our individual schools, as well as our strategic plan, and connect to every aspect of school practice: thinking curriculum, intentional instructional practices, assessment for learning, and lesson design.

Professional learning opportunities are offered during school hours and outside of contracted hours. In addition to on-site coaching and regular professional learning opportunities, a designated collaborative Thursday time provides the opportunity for teachers to engage in collaborative professional learning at their respective schools focusing on deepening their content knowledge, strengthening their instructional repertoire, improving their assessment strategies, and fostering a shared sense of responsibility.
