To Whom It May Concern:

First of all, thank you for allowing me the opportunity to speak at this pivotal time. The superintendent of Sacramento City Unified School District is proposing major cuts to programs that are essential to the development of children ages three to five. Being educators yourselves, I'm quite sure that you know the statistics and proven evidence surrounding the importance of this program, how beneficial that they all are. So, I would like to know why these programs have become a target, seeing that they are for the most vulnerable in our district. I would also like to know why the superintendent is proposing cuts to the classified staff, their pay and expects them to pay a portion of their medical? How would this be possible? We don't make that much. How would be able to afford what he is proposing?

I have been with this district through thick and thin. I started in the PHI program at Bowling Green Elementary School. I was really impressed with this program because it fit the specific needs of children who had disabilities. If they were able to be fully included, they were allowed to go out into the general education classrooms. The unit housed their therapist. If they had any issues with braces or their wheelchairs, the techs and doctors came to them. It was a beautiful concept. This unit was shut down two years ago. The parents did not find out because the staff was told to not say anything. Why? Where is the representation for these children, in our district? Why were parents not notified? So, these children have been displaced and placed in classrooms that were not right for them. Fern Bacon was affected by this move and shut down last June. Bowling Green was their feeder school.

I would like for the Board to sit down and go over what is being proposed. Is it sound? Is it fair? Is it just? Especially since the superintendent seems to enjoy the perks of this position.

Please keep the pre school program. Our children attended it and our youngest is now just finishing Cal Poly. Those teachers know how to inspire young learners and they were well prepared with an attitude of success for college. Thank you, Tom Trimmingham

Name:	Kevin DiLoreto
Comment:	<p>Hello my name is Kevin DiLoreto. I am a current employee in the district and possibly a future parent in the district. I sadly must say possibly a future parent in the district because with the lack of investment and the continued threat of disinvestment by the Superintendent with layoffs I may send my child to another district. Just recently you voted against his unnecessary cuts and you need to again reject what he's trying to jam through with only a brief discussion. I mean he hasn't even provided specifics yet and we have seen that when this was allowed to happen in the past that it turned out to be a mistake and students were the ones who ultimately suffered. Superintendent Aguilar easily found \$6.2 million dollars for outside legal counsel (e.g., Lozano Smith) and \$730,000 for his own office expenses, including his executive assistant and travel. But he can't find \$500,000 for our neediest children to have access to preschool? Remember board members you were put in these positions to advocate for your constituents and as we saw last year the citizens will vote out those of you who don't listen to them. Reject the Superintendent's nonspecific proposal.</p>

Comment:	<p>Please do not lay off teachers. Our students are suffering enough and do not need the added stress of losing their teachers as well. I have heard from students before who have lost a teacher and had a substitute the main part of the school year and they all</p> <p>say they do not learn anything, there is no consistency in assignments or grading. Even worst, they never now who to contact or how to speak with their “teacher” about the situation because it is a new sub every month. They all express frustration at the inability</p> <p>to understand material or be successful in the course and it makes them feel unimportant and undervalued at their school. Is this the message we want to send to our students during an uncertain time? Shouldn’t our goal be for their educational success and</p> <p>some consistency?</p>

Comment:	I find it curious that the board is considering an action, 9.2, termination of staff, yet has not identified which staff positions are slated for elimination. Your agenda notes that the appendix item for agenda 9.2 would be available 2/16, yet when I check this morning (2/18), the appendix is still blank, just like it has been for days now. SCUSD, it is cowardly to not let the public, your constituents, see who you intend to lay off. I have serious doubts about your commitment to your "Students First" motto.

Comment:	Please prioritize people right now. We should not be cutting positions or programs that we know have value. SCUSD claims to prioritize mental health and employees get weekly wellness updates from the district. In order to truly prioritize the mental health of your employees, do not threaten to cut their jobs. Do not add to the stress that so many are feeling day in and day out right now.

**Comments by Nikki Milevsky of the Sacramento City Teachers Association (SCTA), to the Sacramento City Unified School District (SCUSD) Board of Education, Agenda Item 9.2**

**February 18, 2021**

Dear Board Members,

Before you vote on the large number of layoffs the superintendent is asking you to approve Thursday night, we implore you to look at the facts of what happened as a result of the layoffs last year.

The first attachment is the layoff resolution from March 2020. Although this year's proposed layoff is even larger, you will see some similarities to positions that the board approved to layoff last year. As you can see last year, the board voted to layoff math, English, science, physical education, social science, art, elementary multiple subjects, k-8, special ed and other teaching positions.

Please look through the second and third attachments which are the postings of vacant positions the district needed to fill during the summer and fall of this school year. You will see the district trying to hire math, English, science, physical education, social science, art, elementary multiple subjects, k-8, special ed and other teaching positions that your staff told the board to layoff last March. Even after the school year started, the district still needed to hire teachers in many of these areas. This left many of our students without fully credentialed teachers for large parts of the year.

This year your staff is asking you to approve laying off 132 teachers in mostly the same areas the district mistakenly laid off last year. There is a national teacher shortage. Other districts, are out there recruiting diverse and fully credentialed teachers for their students. Please do not repeat the same devastating mistake again this year by voting to approve these unnecessary and destructive layoffs. Our students deserve to have fully credentialed teachers. Your staff needs to focus on recruiting and retaining them.
