### School Description

Luther Burbank High School is a comprehensive four-year high school located in South Sacramento. The school is dedicated to preparing our diverse student population for the challenges of college and career. In order to fulfill that promise the school provides programs that range from English Language Development to International Baccalaureate Diploma. Our Latino, African American, Pacific Islanders, South, South East and South West Asian students, among others, all share in the rich fabric of diversity the school culture provides.

In an effort to create an educational environment based on relationships and individual learning, the school has been organized into Small Learning Communities (SLC). Rather than a single large school of approximately 1700, we are a campus of six small learning communities, each centered around an academic pathway theme, where students are placed into groups of approximately 300 students and share the same "core" teachers, as well as a geographical area of the school site itself. The smaller learning communities allow for a more personalized instructional experience. In addition to more personalized instruction, the themes of the small learning communities allow the campus to better connect to the community at large, making instruction more relevant to students as they see, and experience, how curriculum translates to the world beyond our walls. The themes of our small learning communities are: Food and Health Sciences, Law and Social Justice, Media Arts and Technology, Building Trades Academy, World Cultures and Global Studies.

For more information about the school, please visit our website at: [www.Lutherburbankhs.com](http://www.Lutherburbankhs.com)

## About the SARC

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC web page at <https://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF web page at <https://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

## A. Conditions of Learning

### State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

**Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2018-19)**

The district instructional material evaluation committee, consisted of members representing teachers, administrators, other staff, students, parents/guardians, and community, ensures that the selected textbooks, technology-based materials and other educational materials effectively support the district's adopted courses of study and meet current curricular goals and California Content Standards. Teachers, students, parents/guardians and community members have the opportunity to review and provide input about the instructional materials being considered for adoption. Recommendations for the adoption and/or withdrawal of instructional materials by the instructional material evaluation committee are presented to the Board by the Superintendent or designee and include documentation supporting the recommendation. In some instances, the considered textbooks and/or instructional materials are piloted for a period of time before being recommended for adoption to the Board of Education.

**School Facility Conditions and Planned Improvements (Most Recent Year)**

Luther Burbank High School, built in 1961, received Facility Inspection Tool (FIT) overall repair rating score of “good” from its most recent facility inspection in September 2018. The district governing Board has adopted cleanliness standards for all district schools to ensure that all schools are clean, safe and functional. The district Operations Department takes great pride following a work order process that provides efficient and timely services to all the sites. The principal works directly with the site custodial staff to develop cleaning schedules to ensure that the school is clean and safe.

The passage of Measure Q, the district’s 2012 general obligation bond, provided facility upgrade funding to all district schools. The district performed Quick Strike projects during the summer of 2014, which allowed schools to pick from one of the following improvements: 1) marquees, 2) closed-circuit television (CCTV) surveillance, 3) exterior painting, or 4) seal coating and striping of parking lots or playgrounds. Fire alarms at all the district schools were upgraded. Additional 10 million dollars have been allocated for safety and security upgrades, which are expected to begin in 2019.

Funding from the federal government through Universal Service Administrative Company (USAC) provided for technology infrastructure improvements to the district’s wireless connectivity. The improvements, which are expected to be completed by the end of 2019, will increase classroom internet access and digital voice communication.

Luther Burbank High School received additional Measure Q allocation in the categories of Core Academic Renovation, Modernization, Repair and Upgrades that have been designated to be used to renovate ten science classrooms scheduled to start in winter 2019.

In addition, the State’s Emergency Repair Program funded the east parking lot asphalt and concrete upgrades, interior campus concrete replacement, kitchen repairs, new auditorium drapes, and 4-H building replacement.

**B. Pupil Outcomes**

**State Priority: Pupil Achievement**

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Cells with N/A values do not require data.

Note: The 2016–17 and 2017–18 data are not available. The CDE is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The CAST was pilot-tested in spring 2017 and field-tested in spring 2018. The CAST will be administered operationally during the 2018–19 school year. The CAA for Science was pilot-tested for two years (i.e., 2016–17 and 2017–18) and the CAA for Science will be field-tested in 2018–19.

Note: Science test results include the CAST and the CAA for Science. The “Percent Met or Exceeded” is calculated by taking the total number of students who met or exceeded the standard on the CAST plus the total number of students who met the standard (i.e., achieved Level 3–Alternate) on the CAA for Science divided by the total number of students who participated on both assessments.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site

### Opportunities for Parental Involvement (School Year 2018-19)

Luther Burbank has a parent center on campus. The parent center is staffed full time and coordinates the Parent Home Visit Project, parent teacher conferences, translation for parent contacts and Parent University. Additionally, five parents serve on the school's Site Council. Contact Alma Lopez for information and opportunities for parents to be involved with the school.

For more information, contact Alma Lopez at (916) 433-5100, ext. 1037.

### State Priority: School Climate

The SARC provides the following information relevant to the State priority: School Climate (Priority 6):

- Pupil suspension rates;
- Pupil expulsion rates; and
- Other local measures on the sense of safety.

The Comprehensive Safe School Plans for the Sacramento City Unified School District are revised annually to ensure the contents of the plans are uniform and updated to address the components set forth in Section 32282 of the 2018 California Education Code. This plan is a work in progress as the Safe Schools Office and the Sacramento Police Department continue to seek the most current information and advice from subject matter experts.

\* Number of classes indicates how many classrooms fall into each size category (a range of total students per classroom). At the secondary school level, this information is reported by subject area rather than grade level.

#### Professional Development provided for Teachers

To realize the vision of Sacramento City Unified School District, which is to fully prepare all students for college and career, it is imperative that the district provides numerous opportunities to expand the professional repertoire of its administrators and teachers.

To that end, the district has crafted a high quality professional program that is focused on Literacy (including ELA Common Core Standards), English Language Learners, Differentiation of Instruction, Data Inquiry, Culturally and Linguistically Teaching and Learning, and Conceptual Understanding of Mathematics. The learning opportunities afforded through this program deeply align with the needs of our individual schools, as well as our strategic plan, and connect to every aspect of school practice: thinking curriculum, intentional instructional practices, assessment for learning, and lesson design.

Professional learning opportunities are offered during school hours and outside of contracted hours. In addition to on-site coaching and regular professional learning opportunities, a designated collaborative Thursday time provides the opportunity for teachers to engage in collaborative professional learning at their respective schools focusing on deepening their content knowledge, strengthening their instructional repertoire, improving their assessment strategies, and fostering a shared sense of responsibility.

### Types of Services Funded

SCUSD and district schools provide supplemental programs and services through categorical funds and other sources to support the needs of all students, including GATE, students with disabilities and English learners. Programs and services such as enrichment program, family engagement activities, supplemental instructional materials, and academic, social and emotional support programs help our students achieve grade level readiness, mastery of the California Common Core State Standards (CCSS), and college and career readiness. Luther Burbank High School and district supplemental programs and services include:

- Reduced teacher: student ratios
- Technology and supplemental reading and math materials
- Tutoring
- Extended day classes
- Fees for International Baccalaureate classes
- Bilingual tutors and materials
- Supplementary bilingual classes.

Please check with your child's principal to receive information regarding the services that are specific to your child's school.

### Career Technical Education Programs

The College and Career Readiness Department provides high quality support to all schools in Sacramento City Unified as they move to adopt a “Linked Learning” approach preparing students for career and post-secondary experiences. The department also works closely with industry and community partners as well as post-secondary institutions to support our schools in preparing our students to be successful after graduation.

Linked Learning is a career-themed approach to learning that prepares students for their future: academic preparation for college and professional skills for success in the workplace. Students study through a profession that interests them, learning challenging academics and professional skills in the classroom while getting real world experience through internships. No matter which professional interest they choose, Linked Learning students develop into adults who are prepared for college, career, and life after high school.

The CTE programs offered at each of the SCUSD high schools are diverse and unique to the specific culture and needs of each school. The Career Technical Education (CTE) pathways represent the twelve (12) Industry Sectors identified by the state.

CTE programs and courses are reviewed by CTE District Wide Advisory Committee comprised of a variety of people including, but not limited to, business partners, community leaders, parents, students, educators and other interested parties. The committee discusses awareness, recruitment, placement, and retention of middle, high school students in CTE classes; local labor market, and school/business partnerships. Career technical education updates, evaluations and funding will also be reviewed. The committee is also responsible for approving the SCUSD Career Technical Education Plan.

### DataQuest

DataQuest is an online data tool located on the CDE DataQuest web page at <https://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.
