

8th Grade High School Visitation Day!

REGISTER NOW!

THURSDAY, NOVEMBER 2
9:00-11:00 AM
1400 DICKSON ST.
SACRAMENTO CA, 95820

Why Choose New Tech?

At Sacramento New Technology High School, we recognize the importance of providing a safe, positive learning environment and building strong connections with students and families. Course instruction is centered around five schoolwide learning outcomes that provide students the knowledge and skills necessary to succeed in the workforce.

Career Technical Education (CTE)

We are the only school in the district to offer a Computer Science CTE pathway. Students in this pathway design robots, create video games, and learn coding and software development skills.

Early College High School

New Tech is proud to be an Early College High School, which allows our students the opportunity to graduate with a high school diploma AND an A.A. degree from Sacramento City College.

Project Based Learning (PBL)

Students learn valuable critical thinking and collaboration skills through PBL instruction. Students are assessed in all subject areas using the five schoolwide learning outcomes.
