

Understanding Your 457(b) & Roth 457(b)

Overview

The 457(b) and Roth 457(b) are retirement plans designed for school employees to supplement their CalSTRS/CalPERS pension plan. On average, your pension replaces 50% to 60% of income in retirement.¹ Studies show at a minimum, you'll need approximately 80% income replacement to maintain the same standard of living in retirement.² A 457(b) and Roth 457(b) offer school employees a way to bridge that gap while saving for retirement.

457(b)

Taxes

Contributions are made to a 457(b) before taxes are taken from your paycheck, reducing your taxable income. Taxes are paid on withdrawals, typically in retirement when you'll likely be in a lower tax bracket.

Withdrawals

You may begin taking withdrawals from a 457(b) at age 59½ or when you leave your employer, or in the case of death, disability or an unforeseeable emergency. Supporting documentation is required and you may be subject to penalty fees. Distributed funds cannot be rolled back into the plan.

Loans

A loan may be taken against 457(b) funds while you're still employed. Repayment terms and interest rates are determined by your plan's vendor.

Roth 457(b)

Taxes

Contributions to a Roth 457(b) are made after taxes are taken from your paycheck, allowing your earnings to grow — and withdrawals taken — tax-free if the account has been open for at least five years and you're age 59½ or older.

Withdrawals

You may withdraw from a Roth 457(b) at age 59½ or when you leave your employer, or in the case of death, disability or an unforeseeable emergency. Supporting documentation is required and you may be subject to penalty fees. Distributed funds cannot be rolled back into the plan.

Loans

A loan may be taken against Roth 457(b) funds while you're still employed. Repayment terms and interest rates are determined by your plan's vendor.

Contributions

In 2024, you may contribute up to a combined \$23,000 to a 457(b) and/or Roth 457(b). It's possible to contribute more than the maximum if you meet the following requirements in 2024:

- Age 50+ = an additional \$7,500.
- Age is within three years of Normal Retirement Age (NRA)* = up to an additional \$23,000.

*NRA is typically 62 or 65. Check with your plan administrator.
