Please note: There is no employer HSA contribution for 2021.

Eligibility and contribution limits to your health savings account (HSA) are determined by the effective date of your high deductible health plan (HDHP). If you're covered as of December 1, you're considered an eligible individual for the entire year and you're not required to prorate your contributions. If you cease to be an eligible individual during the next calendar year, any funding over the prorated amount is considered an excess contribution and subject to a penalty and income tax.

Employees may actually contribute more money into their HSA than just the amount of the deductible. For 2021, employees may contribute up to an IRS maximum of \$3,600 for self only coverage or \$7,200 for family coverage. Employees that are age 55 and older may contribute an additional \$1,000 as an HSA catch-up contribution.
