

Greg Purcell - Principal, Sutter Middle: "When all the work is completed at Sutter it will really be nice. The new air conditioning and heating systems will be welcome relief to staff and students. The new energy efficient lights have already changed the atmosphere in many classrooms and the exterior paint is the final touch to an exciting and sometimes nerve-wracking experience."

Eva Hughes - Student: "When you return books you don't have to bother Mrs. Corti, you can just put them in the return slot."

Brandon Keith - Student: "I like the new lights because you can see better than with the ones that had been there for 50 years."

Projects Completed
